GRADE 29 (9-foot) Same specifications as above <u>except</u> for the following:	
SPECIES	Spruce/fir only - greater than 25% fir content

NOTE: Loads may be rejected by JDI scale staff prior to unloading if they do not meet minimum specifications. Grade shall be determined by JDI based on a 40+ piece sample extracted randomly from each load and measured using the above specifications (if spruce content in the sample is less than 60% the load will be assessed as Grade 29). Quality (% acceptable pieces) shall be measured using the above specifications. Loads assessed as 90% or higher may be eligible for a QUALITY BONUS where applicable under contract terms or as determined by J.D. Irving, Limited. Any supplier whose quality sample results fall below 60% for any one (1) load, or fall below 85% for any three (3) loads delivered within a 4 –week period, shall be placed on QUALITY SUSPENSION and deliveries immediately suspended. Suppliers on quality suspension shall not be allowed to resume delivery until approved by the Regional Wood Buyer.

The trucker or producer must notify the JDI scale staff or Chief Scaler of any disputes regarding scale or sample selection at the time of delivery. JDI will make best efforts to hold quality samples for 24 hours when results fall below 85% to allow time for inspection. These specifications are subject to change by JDI with minimum notice.
